Crypto

- Bitcoin

For illustrative purposes only. If the portfolio deviates from its neutral mix by greater than 5% between annual rebalances, the portfolio will also be rebalanced back to its neutral mix. The underlying ETFs are subject to change at the discretion of the Sub-advisor. Those listed above may be removed from a Fidelity ETF's portfolio and other Underlying Fidelity ETFs not listed above may be added.

Choosing Fidelity

Working with leading service providers committed to digital assets

ETF custodian: Fidelity Clearing Canada¹

- An **industry-leading** clearing and custody provider.³

- **In-house registered brokerage** servicing both PMs and IIROC registered brokers.

- **First Canadian custodian** to be approved by national regulators.

Leverages

Bitcoin sub-custodian: Fidelity Digital Assets²

- **Extensive physical, cyber and operational controls.**

- Employs **multiple layers** of cold wallets.

- **Tested institutional capabilities** – custodian of Fidelity's Wise Origin Bitcoin Index Fund in the U.S.

¹ Fidelity Clearing Canada ULC (FCC) is an indirect, wholly-owned subsidiary of 483A Bay Street Holdings LP, which is a joint venture between FIL Limited and Fidelity Canada Investors LLC.

² Fidelity Digital Assets is a service mark of Fidelity Management & Research Company LLC. Services provided by Fidelity Digital Asset Services, LLC.

³ FCC is not providing clearing services to the ETF.

Commissions, trailing commissions, management fees, brokerage fees and expenses may be associated with investments in mutual funds and ETFs. Please read the mutual fund's or ETF's prospectus, which contains detailed investment information, before investing. Mutual funds and ETFs are not guaranteed. Their values change frequently, and investors may experience a gain or a loss. Past performance may not be repeated.

The statements contained herein are based on information believed to be reliable and are provided for information purposes only. Where such information is based in whole or in part on information provided by third parties, we cannot guarantee that it is accurate, complete or current at all times. It does not provide investment, tax or legal advice, and is not an offer or solicitation to buy. Graphs and charts are used for illustrative purposes only and do not reflect future values or returns on investment of any fund or portfolio. Particular investment strategies should be evaluated according to an investor's investment objectives and tolerance for risk. Fidelity Investments Canada ULC and its affiliates and related entities are not liable for any errors or omissions in the information or for any loss or damage suffered.

Certain statements in this commentary may contain forward-looking statements ("FLS") that are predictive in nature and may include words such as "expects," "anticipates," "intends," "plans," "believes," "estimates" and similar forward-looking expressions or negative versions thereof. FLS are based on current expectations and projections about future general economic, political and relevant market factors, such as interest, and assuming no changes to applicable tax or other laws or government regulation. Expectations and projections about future events are inherently subject to, among other things, risks and uncertainties, some of which may be unforeseeable and, accordingly, may prove to be incorrect at a future date. FLS are not guarantees of future performance, and actual events could differ materially from those expressed or implied in any FLS. A number of important factors can contribute to these digressions, including, but not limited to, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, global equity and capital markets, business competition and catastrophic events. You should avoid placing any undue reliance on FLS. Further, there is no specific intention of updating any FLS, whether as a result of new information, future events or otherwise.

Currency neutrals funds use derivatives to mitigate the fund's exposure to changes in exchange rates between developed market currencies and the Canadian dollar. The investment approach used by the funds, while effective in reducing exchange rate risk, will not completely eliminate the impact of currency fluctuations. The funds' returns will differ from the local currency returns of its underlying funds.
